

The Motor Vehicle Department had a busy year in 2015. While not a lot changed with legislation, we had 2 retirements, some inter-office transfers and a lot of new faces join our team. We rearranged the office to offer maximum customer service on the front line and now all 7 desks are full with the exception of absences.

The amount of customer's coming in to our office along with the amount of mail we see from banks, dealers and other lenders seems to continue to grow. The Clerk and Recorder's Office nearly met a half of one million dollar increase over 2014 in total fees collected. We continue to look at new and more efficient ways to serve the residents of Fremont County.
