Re: CUP 10-003 – Conditional Use Permit Renewal

Dear Mr. Koch,

Please accept this as Black Range Minerals request to extend the BLM Hansen/Tallahassee exploration permit for an additional four (4) years, if possible.

Please consider this as Black Range Minerals update on the status of Taylor Ranch Exploration project. Early November, I will be removing the surface material (storm water material, cables, buckets, etc.) from the piezometer locations. After items have been removed, I will reseed those disturbed areas.

Due to the current low price of uranium, it is not feasible for BLR to continue exploration at this time.

Should you require any further information, please do not hesitate to contact me at 435-459-1354.

Yours sincerely,

Michael Rutter
Vice President / Operations
